- Digital controls and auto operation: for 24/7 programmable backup
- Moisture removal: Removes up to 163 pints of moisture per day

NEMA 5-20

Climate Pro D12 Heat Pump

From \$100 per day / \$300 per week
(delivery and setup fees not included)

- Air-cooled unit with 11,450 BTU cooling / 9,900 BTU heat
- Operates on standard 115v power
- Provide cooling down to 65°F - operates up to 95°F
- Digital controls and auto operation: for 24/7 programmable backup of systems

OWC18 Water-Cooled

From \$125 per day / \$375 per week
(delivery and setup fees not included)

- 18,000 BTU of cold air
- Space saving, quiet, and powerful
- A water cooled unit does not require condenser air ducting. Instead, the rejected heat is transferred by the piped or hosed water leaving the unit.
- Operates on standard 115v power
- Deluxe Electronic Controller with Large LED Display
- Automatic and Manual 6-Speed Fan Control
- Internal Water-Cooled Condensing Circuit
- Quick Connect hose fittings for fast and easy set up
- Automatic Condensate Pump with Overflow Alert

Revolt 5000 Dehumidifier

From \$85 per day / \$250 per week
(delivery and setup fees not included)

- 115v; 8.3A - Low Amps and low power consumption, safe and energy saving
- Moisture removal: Removes up to 230 pints of moisture per day
- Adjustable handle and large wheels for superior mobility around any jobsite
- Digital display featuring intake temp, output temp, and relative humidity
- Continuous drainage outlet for add redundancy in case of water pump failure

Need A Larger Solution?

Whether it's extra cooling needed during extreme weather conditions or a short-term replacement following an emergency, businesses sometimes require equipment to cool, heat, or power an indoor environment on a temporary basis. HRS can do that and more, delivering fast, reliable, and cost-effective solutions when you need them. See website for a complete overview of our services and capabilities.
